Have You Ever Wounded What it Would be Like if you Fell in Love with Your very own Gaming Console haha ^^ MC Named He Fell in love with his Future Gaming console And Became Lovers. He Had little to no money Left so he took Gamble on Betting his Last Dollar on Ticket and Shockingly he won \$10,000 Happy Enough With His money and his Brand new GF They Spent the Night Together. I gotta say as Funny as this was There were Lewd Parts in it and funny choices as well. I would Recc this to Anyone who wants to well Fall in Love there Game Console.. Highly Unbalanced!!!!!! Its just a heli or plane rush into the other spawn points not fun at all! Need a dedicated server to run the map? Why you do this? How about you fix the game!!!!. Interesting game. I just started to play it, but it looks like i like it.

One think. I would like to change key binding.

In Oculus there are special key for grab, in this game it is trigger. I want to change this.

But i do not know how.. pretty good game. at least you tried. Good job! It is easy to use ! but there are some suggestions:

1 .please provide several skydome options, or allow custom sky (such as custom color or HDRI), now the sky looks....creepy

2 .does not support the alpha channel texture, so, the trees(PNG texture with alpha channel) can not rendering correctly

3.please support SKP format

4 .rendering mode is too flat, often can not distinguish the volume

. This games hasn't aged well. I love Might and Magic V and VI, and this seems like it would play a lot like them, but my love for those games is definitely founded in nostalgia. If you haven't already played this game, or the PnP game it's based on, you probably won't enjoy it.. Short, fun, free. Interesting dynamic and play.. A Valken clone with mouse aiming. Good for a few hours. I recommend Gigantic Army over this, though.. Classicube brings back an awesome nostalgia value giving us the minecraft classic with alot of enhancements, definitely a must have if you miss good ol' minecraft classic

It's a lot of fun if you have someone to sit down and play it with, especially considering how inexpensive it is. If you are on the fence consider watching the link below. They are playing on console what is literally the same game, there are no differences I'm aware of.

[It is not a game I would recommend for solo play however. If you are looking for a single player game, look elsewhere.](#)
[. Surprisingly not bad.](#)

[If you like the Touhou characters and Wizardrylikes, this is basically for you.](#)
[If you don't much care for Touhou but still like Wizardry, it's still got some appeal.](#)

[It's more along the lines of Elminage than a hardcore standalone series - that is, it takes the basic mechanics from the early Wiz games and adapts them with some QoL features - and adds a bunch of hit-and-miss humor and cutesy art. The game itself plays quite well, and while I wouldn't recommend it for people looking for the next Grimoire, it will definitely fill a void if you've already played through games like Unlimited Adventures, Labyrinth of Refrain and the like.](#)

[Plus the price is very reasonable.. If you seen my other review about RS/HOS then this is just the same game, maybe its not the best of quality like the main games are, but if you have a stronger PC it should be no trouble. Though even if you have a PC that could run the main game decently well or a lower budget PC you should still be able to play it pretty well. The main point is to bring new content to the game, you can play maps along the western front such as D-Day, Carentan, and many more famous war zones from the second world war. Theres some new dialogue, all weapon upgrades are unlocked from the start, new vehicles, weapons, and classes. New nations and armies I.E - British commonwealth army, British airborne, US airborne, US 29th Rangers Infantry division, and many more. Point is that this is perfect for those who were hoping for a RO2 game that didnt take place in the Pacific or the Eastern front. Give this a try if you have one of the two main games. Its free so what have you got to lose?. Way too Easy to keep me interested, literally just hold down left and right mouse and run to enemies and they die. Nice concept with the area style but feels limited by the lack of different weapons or characters. This game sure as hell is not worth \\$10 for what it is, which is just hack and slash through waves of enemies. I found the music annoying and repetitive, just like the game itself.](#)

[. I love these story mission DLCs. I hope Stardock keeps them coming, obviously with just as many feature DLCs. I love this game, but do agree it has lots of room to improve. I think DLCs are the best way to achieve this improvement, as game prices have been the same for more than a decade. DLCs are the way the industry survives because most gamers are cheap.](#)
